

CUYAHOGA VALLEY NATIONAL PARK
Programmatic Environmental Assessment for Riverbank Management
of the Cuyahoga River

6.0 Consultation and Coordination

6.1 Public Involvement

As part of the NEPA Scoping process, letters dated October 15, 2002 were sent to involved agencies and other interested parties. The letter explained the intent of CVNP to prepare this Programmatic EA and requested comments and input regarding the analysis to be performed. A copy of this letter and a list of recipients of the letter are included in Appendix F. Comments were received from some of the recipients. Copies of these comments, along with responses are also included in Appendix F.

During the impact analyses for the alternatives, agencies were consulted for data and expertise in appropriate fields. In particular, the Ohio EPA contributed water quality data for the Cuyahoga River.
